

Amendments to the Specification:

Please amend the specification as follows:

Please replace the paragraph starting at page 5 line 1 with the following rewritten paragraph:

Referring now to Figure 4, a carriage 30 of a printhead service station 150 in accordance with a first embodiment of the present invention comprises a servicing module 31 at the front of the carriage for capping the pens, a servicing module 32 serving as a spittoon for the pens, and a servicing module 34 at the rear of the carriage for wiping the black pen. The carriage is driven by a motor 20 in a reciprocating manner in the direction 21. A servicing module 35 for wiping the colour pens is detachably connected to the carriage 30 by means of a connecting arrangement 40, shown in detail in ~~Figure 3.~~ Figure 5. Module 35 is mounted on its own carriage, which travels on the same guidance system as main carriage 30.
